CORN raised again, and bid so. There was
 no dealing on the stock, except in options, and
 neither May brought his, with the big
 May. New Corn was quoted at 45c on a
 range of 42 to the close yesterday. On Thurs-
 day the price moved sharply at the far No 1
 and No 2. New Corn improved. The market
 came from Liverpool, the Corn was 4c
 higher a dollar better, and the market here
 was active at the far No 1, and then the
 No 2, and then the No 3, and then the No 4.

...and placed on "Change" at 98—48 1/2 cents of 10, rose to 99, but weakened later, being dull at 98 1/2, with no buyers. The market again became firm with more inquiry early in the afternoon. Sales were 10,000 lb.

The image shows a black and white photograph of a newspaper page, likely from the New York Times, as indicated by the text in the top left corner. The page is filled with a dense grid of text, organized into multiple columns. The text is heavily blurred, making individual words and names difficult to read. The layout appears to be a standard newspaper page with multiple columns of text. The top left corner contains the text "New York Times" and "Monday, January 1, 1980". The rest of the page is filled with various headlines and articles, though the specific content is illegible due to the blurring.
